Stories of romance and adventure in worlds of imagination

www.helenhenderson-author.webs.com

Email: helenhenderson.author@gmail.com

The concept behind the Novel Notebook Fact Sheet is to provide an author, especially those independently publishing their own work, with a place to keep all the post-release information. Items such as the ISBN, links to sales and excerpt pages, as well blurbs and excerpts are centrally located in one form for quick, easy reference. The form can also help track the data needed to promote your books published by a traditional press.

Not all sections will pertain to each author, especially the links section so feel free to customize it for your particular works. Feel free to modify it to fit your particular needs. I do request however, that you only use it for your own personal use and do not include it in other works, either in part or total, in electronic or print form without permission from the author.

Enjoy and happy writing.

Helen
